Livestock Management (A11425)

Short Title: Livestock Management
Faculty Science and Computing
Department Land Sciences
Cluster Agriculture
Author JRYAN
Credits 5

Level: Advanced

Description of Module / Aims

This course is designed for students who already have a basic knowledge of animal production. The course will examine the fundamentals of grass production and sustainable animal nutrition. It will explore animal health and behaviour. Modern wintering systems will be compared. Animal breeding and genetic programmes will be evaluated.

Programmes

MGTH-0018 BSc (Hons) in Land Management (in Agriculture) (WD_SBSAG_B)

1 / 1 / M

Indicative Content

- Grass production
- Sustainable animal nutrition
- Animal health and behaviour
- Wintering systems
- Animal breeding and genetics

Learning Outcomes

On successful completion of this module, a student will be able to:

1. Assess grass production methods.
2. Determine sustainable animal nutrition.
3. Evaluate the factors affecting animal health and behaviour.
4. Assess modern wintering systems.
5. Plan a sustainable animal breeding programme.

Learning and Teaching Methods

- Lectures.
- Outdoor demonstrations.
- Expert lecturers.
- Webcast presentations.

Assessment Methods

	Weighing	Outcomes Assessed
Final Written Examination	70%	1,2,4,
Continuous Assessment	30%	
Assignment	30%	3,5

Assessment Criteria

- <40%:** Very limited knowledge and understanding of the subject matter.
- 40%-49%:** Will be able to show a good knowledge of the key learning outcomes, including a good understanding of livestock management.
- 50%-59%:** As well as the above the student will be able to integrate the various components of the course.
- 60%-69%:** In addition, the student will demonstrate more detailed knowledge of all the topics, including how to evaluate the factors affecting animal health and nutrition as well as breeding programmes.
- 70%-100%:** The learner will be able to demonstrate a comprehensive knowledge and understanding of all learning outcomes, including the ability to fully integrate the various components of the course.

Learning Modes

Learning Mode	F/T Hours	P/T Hours
Lecture	36	
Field Trips	12	
Independent Learning	87
