## Description of Module / Aims

The purpose of this module is to facilitate students in developing their employability, and making the transition to the workplace, within a framework of personal and career development planning. The module will cover career development, CV and applications preparation, preparing for interviews, networking and collaboration, social media and online reputation, mock interviews and role-plays. In certain instances, mock interviews will be recorded and presented to participants to assist in the development of presentation and job interview skills. Dedicated resources will be developed to support participants including standard templates to record student profiles, online resources to support student queries and resources highlighting good practice in job interview skills.

## Programmes

COMP -0535 Diploma in Computing with Security and Forensics (WD\_BCSEC\_SP)

3 / 1 / M

## Indicative Content

- Self-awareness: reflection workshops and exercises to identify personal skills, abilities, interests and motivations and relate these to career opportunities
- Social Media and Online Reputation: how to use and leverage social networks to maximise your chances of getting a job; what social networks should you use - and not use - when positioning yourself for employment
- Investigating the job market in a discipline / industry: uncovering the Hidden Job Market through Networking; Tactics and strategies for finding out what is happening in the hidden job market, and how to position yourself to get a job
- CVs and Application Forms: Selling yourself on paper; Why are over 75% of CVs received by employers discarded within the first two minutes of reading?; What do students need to do to make sure their CV is well received?; What employers want to see and how to achieve it
- Interviews: Selling yourself in person; What do employers want to see at interview; Top 10 interview errors and how to avoid them; How to anticipate interview questions and how to structure your answers; Recorded mock interviews; Interview practice within the group -- including practice answering the "Tell me about yourself" question
- Preparing and delivering an interview presentation
- Career Planning: developing an appropriate personal career development plan

## Learning Outcomes

On successful completion of this module, a student will be able to:

1. Analyse the jobs market and recruitment process including the role of networking and social media.
2. Use self-reflective assessment techniques to analyse and build awareness of personal strengths, aptitudes and relevant opportunities in the jobs market.
3. Construct an appropriate personal career development plan.
4. Complete a high-quality CV, application form and cover letter documents that will provide the basis for effective graduate job applications.
5. Apply communication theory by planning for and performing presentation and interview skills for different employment interview scenarios.

## Learning and Teaching Methods

- The module will be delivered by a combination of lectures, group discussions, workshops, individual and group presentations, simulation interviews and meetings, and peer group feedback.

## Assessment Methods

|                       | Weighing | Outcomes Assessed |
|-----------------------|----------|-------------------|
| Continuous Assessment | 100%     | 1,2,3,4,5         |
| Portfolio             | 100%     | 1,2,3,4,5         |

## Assessment Criteria

<40%: Unable to interpret and describe key concepts that relate to Job Readiness.

40%-49%: Be able to interpret and describe key concepts that relate to Job Readiness.

50%-59%: Ability to discuss key concepts that relate to Job Readiness and ability to discover and integrate related knowledge in other knowledge domains.

60%-69%: Be able to solve problems that relate to Job Readiness by experimenting with the appropriate skills and tools.

70%-100%: All the above to an excellent level. Be able to analyse and design solutions that relate to Job Readiness to a high standard for a range of both complex and unforeseen problems through the use and modification of appropriate skills and tools.

## Learning Modes

| Learning Mode        | F/T Hours | P/T Hours |
|----------------------|-----------|-----------|
| Practical            | 36        |           |
| Independent Learning | 99        |           |
